Overview

The System 9000 is a fully glazed frameless partitioning system which combines minimalist aesthetics with outstanding acoustic performance, delivering elegant workspace division. System 9000 offers:

- Single glazed (27mm wide), narrow glazed (54mm wide) and double glazed (102mm wide), options
- Excellent acoustic performances tested to BS EN ISO10140-2 – up to 48dB (Rw)
- Choice of options, including blinds, manifestation, and banding
- Heavy duty barrier rating tested to BS5234 & BS6180
- Designed and manufactured in the UK – available ex-stock
- Powder coated finish in any RAL or BS colour
- Door options include, Acoustic Glass Doors, Frameless glazed doors, Solid Timber doors & Hollow Core Timber.
- Fully demountable and relocatable, delivering a sustainable solution

System 9000 Single Glazed:

Benefiting from ultra-sleek 30mm deep profiles, this version of System 9000 maximises the available floor space throughout builds. Utilising a vast range of toughened and laminated glass options, you can create the perfect environment whilst not having to sacrifice performance. In addition to manifestation and applied graphics, the System 9000 Single Glazed can also be specified with easily applied banding for a stunning art deco industrial appearance.

System 9000 Narrow Glazed:

The Narrow Glazed offers a slim double glazed offering featuring an overall construction width of 54mm. Boasting it's ability to maximise floor space like its single glazed offering, whilst achieving excellent acoustic ratings like its double glazed offering. With the use of our timber door range, the 54mm wide system leaves a clean visual effect showing all elements involved being near perfectly flush.

System 9000 Double Glazed:

For ultimate confidentiality, System 9000 Double Glazed achieves acoustic values of up to 48dB (Rw). This is perfectly complemented by our Acoustic Glass Door options as well as solid core timber doors. The stylish 102mm wide track can accommodate full height toughened and laminated glass up to 3000mm high. As an option to manifestation or banding, integral blinds may also be incorporated using Truline's 2-part blind post system.

Key Features

DIMENSIONS:

Max Height – 3000mm | Max Module Width – 1200mm
Track Width & Height:
Single Glazed – W27mm, H30mm
Narrow Glazed – W54mm, H30mm
Double Glazed – W102mm, H30mm

FIRE RATING:

N/A (refer to fire rated option S9000FR)

GLAZING OPTIONS:

A range including 10mm to 12.8mm toughened and laminated safety glass.

ACOUSTICS:

Single Glazed - Up to 39dB (Rw)
Narrow Glazed – Up to 45dB (Rw)
Double Glazed – Up to 48dB (Rw)

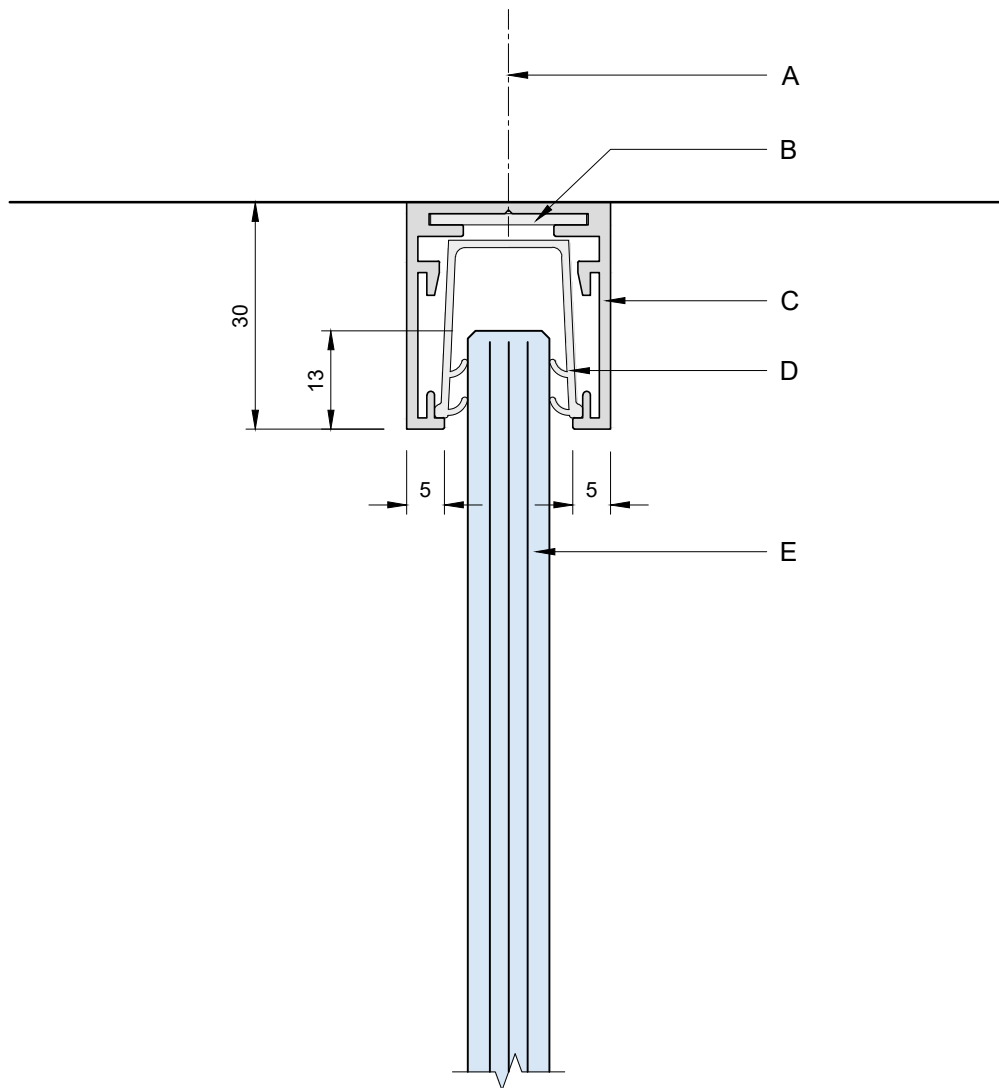

PERFORMANCE:

Option with Barrier testing up to Heavy Duty.

IT IS IMPORTANT THAT YOU READ AND UNDERSTAND THIS STATEMENT BEFORE MAKING USE OF THIS DOCUMENT.

This document is published by Truline Systems. The information contained within this publication is for general information purposes only. The publication has not been prepared to meet the individual requirements of any particular construction project and it is your responsibility to ensure that the construction materials, techniques and processes are suitable for that particular use.

The information contained within this publication is not intended to amount to, nor should it be relied upon as, formal advice or guidance (including from any qualified professional).

The information provided is only to be used and acted on by, or under the supervision of suitably qualified individuals and is correct at the time of going to press. However Truline Systems reserves the right to amend specifications without prior notification in accordance with our policy of continuous development.

The information in this publication is not to be used as a substitute for obtaining suitable independent, professional, qualified and/or specialist advice. If you are not a suitably qualified professional, you must obtain your own independent, specialist advice from a relevant qualified professional for any construction project.

Truline Systems shall not be liable for any loss of profit, revenue, business, contract, opportunity, goodwill, reputation, or any indirect, special or consequential loss arising out of, or in connection with, this publication.
